

# *Respect Earth's Resources*

## Recycling Programs

- **Our Natural Resources**  
Learn about how natural resources are used to make products and why it's important to recycle
- **How to start a recycling program** The St. Louis and Jefferson County metro area has made it easier than ever to begin recycling. Learn how to start your own recycling program at your school, church, business or community. We can help you through the entire planning process.

Respect Earth's Resources believes it is critical to learn about, respect and learn to use our natural resources in a sustainable manner. One way we can use our resources in a sustainable manner is to re-use and recycle. We help businesses, schools and communities with recycling programs. We also offer fun and interactive education programs for groups.
